## EDUCATION

### Full Stack Development

Masai School, Bengaluru 

08/2022 – 07/2023

### Bachelor of Technology

Greater Noida Institute of Technology 

08/2018 – 08/2022 | Greater Noida

## SKILLS

React.js | Node.js | Next.js |  
MongoDB | Express.js | HTML | CSS |  
Javascript | Typescript | Git |  
PostgreSQL | RESTful APIs | Redux |  
Docker | AWS | WebSocket | OOP |  
Prisma | TailwindCSS

## CERTIFICATES

Full Stack Development 

Javascript 

Typescript 

Git 

Java 

## PROFESSIONAL EXPERIENCE

### Kalvium

Technical Mentor(Full Stack Web Developer)

11/2023 – 07/2025 | Bengaluru

- Developed an AI-powered assignment evaluator with React, Node.js, and Gemini API, reducing review time by 95%.
- Designed and optimized a scalable LMS using React, Redux, TailwindCSS, and RTK Query, boosting efficiency by 15%
- Created robust REST APIs supporting 3,000+ daily users for the LMS platform
- Mentored 50+ aspiring full stack web developers through project guidance and code reviews

## PROJECTS

### Readable LMS

[Github](#)  [Demo](#) 

- Developed a scalable LMS platform using Next.js with secure authentication (Email OTP, GitHub OAuth) and Arcjet security to protect against web threats.
- Built modular admin and customer dashboards with drag-and-drop course management and a responsive UI utilizing Tailwind CSS and Shadcn UI.
- Integrated custom video player, S3 file uploads, rich text editor, and Stripe payments for seamless online learning.
- Implemented real-time progress tracking, lesson completion monitoring, and visual analytics to boost user engagement.
- Utilized Neon Postgres with Prisma ORM for reliable data management, enforced rate limiting.

### Invoice

[Github](#)  [Demo](#) 

- A modern invoicing platform that generates invoices in under 40 seconds, using Next.js and Typescript.
- Integrated Magic Link Authentication using Auth.js, reducing login time by 50% data base is postgres and prisma.
- Enabled PDF invoice generation with jsPDF, automated email reminders using Nodemailer, and added real-time tracking with Chart.js

### Shopsy

[Github](#)  [Demo](#) 

- Developed a fully functional e-commerce platform with separate customer and admin interfaces using React.js and Node.js.
- Implemented smooth checkout process with Stripe integration, supporting features like order history, real-time updates, and coupon management.
- Utilized Redis for data caching to improve application performance and response times.
- Built admin functionalities to manage products, update order statuses, and highlight featured products through an intuitive dashboard.
- Integrated Zustand for state management, data visualization using Chart.js.
